

MGIC Streamlines HAMP File Submissions Through The Loan Center

To simplify the process of submitting HAMP reporting files and HAMP "Second Look" files, MGIC has consolidated these processes within The Loan Center. The Loan Center is a secure site with simple applications for sending these files to MGIC.

To log into The Loan Center, select it from the Login dropdown at the top of our home page.

You can use the same ID and password you use for MGIC/Link Servicing, Secure File Transfer or MI on the WEB. If you do not have a current ID and password, you can request access by going to www.mgic.com/signup. Or from our home page, www.mgic.com, click the Sign Up for Services link under Online Business.

Simple instructions for sending files and providing any additional required information are provided within The Loan Center.

For complete information on MGIC's [HAMP](#) options, click the HAMP picture on our home page.
